The event director can allocate the remaining two spots in each category to whom they choose, such as former Superhuman Games champions, athletes from other sports etc.

## THE ONLINE QUALIFIER

Athletes that have registered for the online qualifier will be sent the workout details on Sunday 22nd February.

The online qualifier will consist of 1 x workout that must be completed in line with the workout details provided. As we are aware that not everyone has access to the kit we typically use at the Games, the online qualifier will use a combination of bodyweight movements and movements using kit that is accessible in most gyms (e.g. dumbbells).

You will be required to film your workout as well as have someone to judge & keep score for you. A printable scoring sheet will be provided when the qualifier is released as well as a full breakdown of movement standards for each exercise & guidelines on how the workout should be filmed.

Once completed, you will be required to submit your score as well as a recording of your workout to your account on the Superhuman website (details of which will be provided when the workout is sent out).

You are allowed to submit your score at any point within the online qualifier period, however, please be aware that you won't be able to see anyone else's score when doing so.
